- Licensed Professional Engineer (PE) designation required.
- Excellent interpersonal, written, and verbal communication skills required.
- Strong computer skills required, including proficiency in Microsoft Office and AutoCAD.
- Ability to read and understand blueprints required.
- Five (5) years' experience in heavy steel fabrication preferred.
- Steel bridge fabrication experience preferred.

Duties and Responsibilities:

- Apply engineering principles and practices towards improving manufacturing processes by working with Production, Plant Operations, Sales, Estimating, Engineering and Detailing Departments.
- Act as project consultant providing advice and recommendations to the organization.
- Work with all areas of the organization to develop an overall understanding of processes and be able to provide technical support in the research, design, and development areas.
- Interact professionally with customers, vendors, and staff to address technical needs, resolve issues, and ensure an excellent outcome and experience.
- Act as lead on special projects and perform other duties as requested.

DeLong's, Inc. offers a competitive salary based on education and experience and a competitive benefits package, including health insurance, paid time off, and both a profit sharing and fully-funded defined benefit pension plan. We will be accepting applications through June 1, 2018. If you are interested in and capable of enhancing our extremely talented and motivated team, please send resume and cover letter to:
