

Structural Steel Drafting Technician

DeLong's, Inc. is a steel fabricator that produces steel bridges and miscellaneous bridge components for the transportation industry and structural steel for the building industry. The company, founded in 1944, has approximately 190 employees at its locations in Jefferson City and Sedalia, Missouri. We are seeking applicants for a full-time Structural Steel Drafting Technician at our Jefferson City location. All qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.

Requirements:

- High school diploma or equivalent required.
- Minimum of an associate degree from a two or four-year accredited design and drafting program required.
- Strong organizational, verbal, interpersonal, and time-management skills are required.

Duties and Responsibilities:

- Use computer related design/drafting equipment and software to develop designs.
- Work directly with design engineers to produce drawings from sketches, existing drawings, and electronic images.
- Make final sketch of proposed drawing, check dimension of parts, materials to be used, relation of one part to another, and relation of various parts to whole structure or project.
- Draft detailed multi-view drawings of products and structures.
- Design parts and products based on written and verbal descriptions from design engineers.
- Work closely with all production departments to ensure the drawings convey the correct information and are error free.
- Work from customer drawings, internal drawings, government drawings, or specifications.

This posting will remain open until filled, but candidates are encouraged to apply by June 12, 2020. If you are interested in working for a well-established company while gaining valuable training in this field, please send your resume and completed application to:
